Frontend Developer

Highly motivated Frontend Developer and Dean's List graduate (3.76 CGPA) with over 4+ years of experience building scalable, responsive web applications. Expert in the modern frontend stack—including React, JavaScript, CSS, WordPress, Shopify with a proven track record of delivering pixel-perfect, SEO-optimized, and user-centric interfaces in Agile environments. A fast learner and collaborative problem-solver eager to leverage strong frontend fundamentals to contribute to high-quality projects in a dynamic team.

WORK EXPERIENCE

Cloud Sathi **12/2025 - Present**
Full Stack Developer • Part-time **Chitwan , Nepal**

- Develop responsive full stack web applications using React, HTML, CSS, JavaScript, and Node.js for client facing solutions.
- Deliver production-ready websites, including a Consultancy Website and Rose Garden Party Palace Website, RMS and Saas Product with a focus on performance, usability, and SEO.
- Collaborate with clients to refine requirements, implement feedback, and iterate quickly within Agile workflows

Devsign Technologies **04/2025 - 11/2025**
Full Stack Developer • Internship **Chitwan , Nepal**

- Built and maintained responsive web applications using React.js for both client and internal projects.
- Integrated third-party and internal APIs, ensuring reliable data flow and smooth front-end experiences.
- Followed Agile methodologies and code review best practices to improve maintainability and performance, including SEO and load-time optimization.

SOS Hermann Gmeiner School **10/2024 - 11/2024**
Programming and Robotics Instructor • Internship **Bharatpur, Nepal**

- Taught Python, C, QBasic, and Modular programming, helping students grasp core software development and problem-solving concepts.
- Guided students in designing and building an obstacle-detection robot car using Arduino, integrating sensors and motor control.

EDUCATION

Bachelor of Computer Information System (BCIS) in IT
Boston International College • GPA: 3.76/4.0 Bharatpur, Nepal • 08/2021 - 03/2026

Dean's List holder at Pokhara University.

Relevant Coursework: Web Development (HTML, CSS, JavaScript, React), Database Management (MySQL, MongoDB), Data Structures & Algorithms, Computer Graphics & Image Processing, Data Communication and Networks, Operating Systems

AWARDS & SCHOLARSHIPS

Winner of Project Demonstration 01/2026
United Tech Fusion 2082

Dean's List Award – Academic Excellence
Boston International College

PROJECTS

Smart Hospital System

09/2025 - 01/2026

Developed a healthcare platform using Node.js, React, and React Native to support ambulance booking, doctor appointments, and real-time bed availability.

Built an admin web dashboard and cross-platform mobile app with real-time notifications, patient portal, and management features. Integrated maps, state management, and secure authentication to enhance usability and performance for patients and hospital staff.

UTEC Hackathon – Frontend Developer (Blockchain Platform)

12/2024 - 01/2025

Developed the front-end for a blockchain-based platform managing NPR X, a stablecoin aimed at improving government funding accountability.

Implemented responsive UI, wallet address integration, and Transaction history views, consuming real-time API data from the back-end.

Ensured compatibility with popular wallets like MetaMask to improve accessibility and user adoption.

Trails & Travel – Tourism & Hotel Reservation Website

08/2023 - 12/2023

Designed and developed a responsive tourism booking website using modern web technologies.

Focused on usability, performance, and cross-browser compatibility to provide a smooth booking experience for end users.
