Frontend Developer

Frontend Developer and Dean's List graduate (3.76 CGPA) with professional experience building scalable, responsive web applications using React, JavaScript, TypeScript, HTML, CSS, and Node.js. Skilled in developing production-ready websites, SaaS platforms, CMS-driven applications, and API-integrated systems, with a strong focus on performance, SEO, usability, and responsive design. Hands-on experience with WordPress, Shopify, REST APIs, CI/CD deployments, and Agile development.

WORK EXPERIENCE

Cloud Sathi
12/2025 - Present

Full Stack Developer • Full-time
Chitwan , Nepal

- Develop and maintain production-ready web applications using **React, JavaScript, HTML, CSS, Node.js, and REST APIs**, focusing on responsive design, performance, usability, and SEO.
- Contribute to multiple production systems, including a **Learning Management System (LMS) with public, learner, and admin portals; an omnichannel messaging platform integrating Facebook Messenger, WhatsApp and other social platforms; a restaurant RMS/SaaS; visitor management system (Vislog); consultancy websites; and restaurant websites.**
- Build reusable and scalable frontend components, integrate APIs and third-party services, and implement responsive user interfaces across client-facing and business applications.
- Collaborate with clients and internal teams to understand requirements, implement feedback, troubleshoot issues, and deliver features within **Agile development workflows**.
- Implement SEO and performance optimizations using metadata management, React Helmet, and frontend load-time improvements, and deploy production applications through modern hosting and CI/CD workflows.

Devsign Technologies
04/2025 - 11/2025

Full Stack Developer • Internship
Chitwan , Nepal

- Built and maintained responsive web applications using **React.js and WordPress** for client-facing and internal projects.
- Developed and customized **WordPress websites**, implementing responsive layouts, content updates, integrations, and client-specific requirements.
- Integrated **third-party and internal APIs**, ensuring reliable data flow and smooth frontend experiences.
- Followed **Agile methodologies and code review practices**, contributing to maintainable, performant applications with a focus on **SEO and load-time optimization**.

SOS Hermann Gmeiner School
10/2024 - 11/2024

Programming and Robotics Instructor • Internship
Bharatpur, Nepal

- Taught Python, C, QBasic, and Modular programming, helping students grasp core software development and problem-solving concepts.
- Guided students in designing and building an obstacle-detection robot car using Arduino, integrating sensors and motor control.

EDUCATION

Bachelor of Computer Information System (BCIS) in IT
Boston International College • GPA: 3.76/4.0 — Bharatpur, Nepal • 08/2021 - 03/2026

Dean's List holder at Pokhara University.

Relevant Coursework: Web Development, Database Management, Data Structures & Algorithms, Computer Graphics & Image Processing, Data Communication & Networks, Operating Systems

AWARDS & SCHOLARSHIPS

Winner of Project Demonstration 01/2026

United Tech Fusion 2082

Dean's List Award – Academic Excellence

Boston International College

PROJECTS

Learning Management System (LMS) 06/2026 - 08/2026

Cloud Sathi

- Developed a scalable **Learning Management System** using React, Vite, TanStack Router, TanStack Query, Zustand, and Tailwind CSS, supporting public, learner, and administrative workflows.
- Built and maintained **course management, learning/video, product, certificate, invoice, support, and content-management features** across multiple application portals.
- Implemented **JWT authentication and role-based access control** with protected routes and dedicated learner and administrator access levels.
- Integrated REST APIs using **Axios and TanStack Query**, implementing reusable frontend components and a feature-based architecture for maintainability and scalability.

Restaurant Management System (RMS/SaaS) 05/2026 - 07/2026

Cloud Sathi

- Developed a scalable **restaurant management platform** using React, Vite, and Tailwind CSS, supporting ordering, inventory, kitchen operations, reservations, billing, and reporting.
- Designed a **modular, feature-based frontend architecture** with reusable components, custom hooks, shared UI components, and structured API services.
- Implemented **role-based access control (RBAC)** with protected routes, role-based permissions, and component-level authorization.
- Integrated REST APIs using **Axios and TanStack Query**, with Zustand for client-side state management and React Hook Form for form handling.

Smart Hospital System 09/2025 - 01/2026

- Developed a full-stack healthcare platform using **React, React Native, and Node.js**, supporting ambulance booking, doctor appointments, and real-time bed availability.
- Built an **admin dashboard, patient portal, and cross-platform mobile application** with real-time notifications and management features.
- Integrated **mapping services, API-driven data, state management, and secure authentication**, focusing on usability, responsiveness, and application performance.

SKILLS

Languages: JavaScript, PHP, Python, TypeScript

Frontend: CSS3, HTML5, React, Responsive Web Design, Tailwind CSS, Tanstack Query, Zustand

Backend & APIs: Express.js, JWT Authentication, Node.js, REST APIs

Mobile: React Native

Database: MongoDB, MySQL

Tools, DevOps & Collaboration: CI/CD, cPanel, Git, Jira, Netlify, Postman, Slack

CMS & Web Platforms: Custom CMS, Shopify, WordPress
